

## BOTTLE DRIVE INFORMATION SHEET FOR MEGA BAG USE

Mega bags have been provided to ensure that your bottle drive has the most efficient and safe service possible. The bottle drive coordinator must keep a count of the containers in each separate mega bag; the drivers who pick up the bottle drive will require the breakdown of containers in each separate mega bag. Example: 550 alcoholic 1L and under, 50 alcoholic containers OVER 1 Litre in BAG #1.

### BAG # 1

- Alcoholic, wine & spirit containers under 1L and OVER 1L are to be placed in one mega bag. Please be sure to have a separate count for wine & spirit bottles 1L and under and OVER 1L. When the driver arrives they will need to know how many 1L and under and how many OVER 1L are in each bag.

**STANDARD COUNT 600 CONTAINERS TOTAL PER BAG**

### BAG # 2

- All Non-Refillable beer bottles(NRBC); are to be placed in one mega bag. NRBC bottles are all alcoholic beer bottles that are imported (Corona, Heineken, Smirnoff Ice, etc.) A great way to distinguish a NRBC bottle from a Refillable beer bottle is to look at the bottle and if it requires a bottle opener to remove the cap then it is a NRBC.

**STANDARD COUNT 1000 CONTAINERS TOTAL PER BAG**

### BAG # 3

- All sizes of non-alcoholic glass containers are to be placed in one separate mega bag. Please be sure to have a separate count for juice bottles 1L and under and juice bottles OVER 1L.

**STANDARD COUNT 1000 CONTAINERS TOTAL PER BAG**

ALCOHOLIC WINE & SPIRITS	Mega Bag Count	Including:
Glass 1 Litre or Less	600 TOTAL	Wine, Hard Liquor
Glass Over 1 Litre		Wine, Hard Liquor

Non-Refillable Beer Bottles	Mega Bag Count	Including:
